## Acoustic Cradle & Batten Underfloor Heating System

Suspended Timber Batten Floors

Heat output of up to 80watts/  
m<sup>2</sup>

Suitable for laying on solid and  
timber sub-floors

Increased sound proofing

Individual temperature control  
in every room

**\*technical specifications  
available on request**

### TYPICAL SECTION

- 1 Moulded and foiled EPS insulation
- 2 Aquafloor PE-MDXc heating pipe
- 3 Timber flooring
- 4 Acoustic battens
- 5 Solid sub-floor

### FEATURES AND BENEFITS

- An economical easy to install method to level stepped & uneven sub-floors
- Adjustable to suit various finished floor levels and a variety of services
- Ideal for refurbishment and upgrades, reducing time and cost by eliminating the need for screeded floors
- Reduces impact and airborne noise by creating an acoustic timber floating floor system
- Approved Part E of the building regulations
- The adjustable cradles and risers, reduces the high number of shims required for leveling
- Manufactured from recycled material, reducing your carbon footprint
